

## PUPIL POST 10<sup>th</sup> MAY 2018

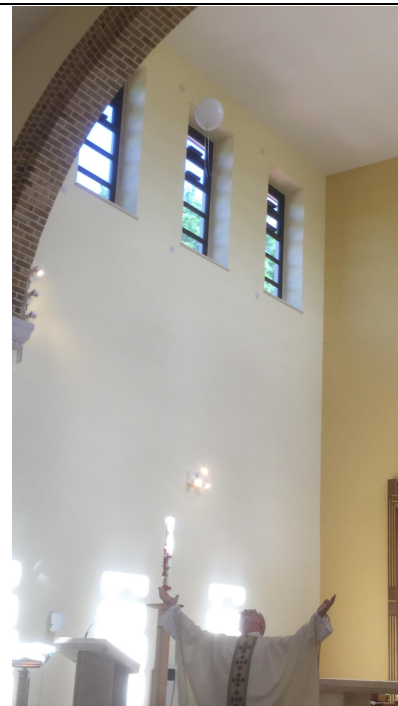

### **ATTENDANCE**

R VH Mozart 95.8%    R PC/TL O'Connor 98.2%    **Yr 1: SC Mistral 100%**    1 CH Stein 99.2%  
 Yr 2: AP Pasteur 98.7%    2 LMc More 97.5%    Yr 3: JC Hildegard 97.4%    Y3 CH Seacole 95.5%  
 Yr 4: DA Bonifacio 98.3%    4AS/SH Michelangelo 96.3%    Yr 5: CB Agnesi 96.7%    Y5GB Teresa 99.2%  
 Yr 6: EG Shakespeare 97.1%    RJ Tolkien 97.5% *Well done to Mistral class who have achieved 100% attendance this week.*

### **Ascension Day Mass**

On Thursday the 10<sup>th</sup> of May the whole school celebrated the feast of the Ascension by going to St Joseph's church. We sang many great hymns, and Father Brian let go of a balloon to symbolise Jesus going up to heaven and that, although He will not come back straight away, He will one day return to his disciples. At the offertory, the Mini Vinnies presented a basket of food for the Food Bank, a poster to remind us to donate and a copy of their prayer as well the gifts of Bread and Wine

### **GOOD LUCK NEXT WEEK IN YOUR SATs YEAR SIX!**

**Thank you so much to all of you and your adults who have worked so hard together to prepare you to show your brilliance. *Remember to get enough sleep and eat well.***

#### **Park'n'Stride Launch from Noah's Ark/Fairlands Playground Car Park**

On Wednesday 9<sup>th</sup> May 2018 the JTAS, Mr White and Mrs Sherry and about 50 children and families were greeted by a very happy Buster, the Active and Safer Travel's team's mascot. The parents were pleasantly surprised how quick it was to get to school. *"It is a great way for the children to improve their fitness and enjoy the walk and time with their friends". "Walking to school really does make a difference as children are healthier and more prepared for the day ahead" say school staff. The Junior Travel Ambassadors know it also helps improve air quality and reduce the incidents of breathing related illness. During the Christmas holiday their Air Quality testing kits showed a large (11.9 micrograms per cubic metre) difference between the results from the church car park (28.1µg/m³) and the footpath along the back of the school (16.2 µg/m³). That was in the school holidays when there was far less traffic.* We found out that the European legal limit is an average of 40µg/m³. **On a school day we wonder what the levels breathed in by people would be on Bedwell Crescent?**

Reception pupils charmed everyone with their assembly on Friday. They talked about how they had

**Mozart**

changed over time and grown in their skills from when they were tiny babies to now as clever pupils who can run, dance, read and ride bikes. We all loved the story of Titch and the Follow Me song. *"An amazing assembly! They all spoke up, danced and sang so well."* *"They looked so cute with all their baby photos"* said David and Eleanor (y5). What a clever and happy class!
